

Swivel Seat Installation Instructions

1. **Parts List**

- 1 – NuCanoe Swivel Seat Mount
- 2 – Seat Screws
- 4 – Carriage Bolts
- 4 – Nylock Nuts

2. **Parts Required**

- 1 – Swivel Bracket
- 1 – Bass Boat/Fishing Seat

3. **Tools Required**

- Phillips Screwdriver or Drill
- 7/6" End Wrench

4. **Secure Swivel Bracket to NuCanoe Swivel Seat Mount** – Insert the carriage bolts through the Swivel Bracket and the Swivel Seat Mount. Fasten on the back side using the Nylock Nuts.

5. **Secure Fishing Seat to the Swivel Bracket** – Place the Fishing seat upside down, and locate the swivel bracket over the holes in the seat. Using the screws provided with the seat, fasten the Swivel Bracket to the Fishing Seat. The larger circular holes in the Swivel Seat Mount provide access to the screw holes. Alternate pairs.

6. **Install in the NuCanoe** – With the tapered end of the Swivel Seat Mount toward the stern of the NuCanoe, secure the seat to the NuCanoe with seat screws via the slots. For the most secure fitting, use the slots closest to the bow of the NuCanoe.

7. **Ready for use!** – If you have questions or comments please contact your NuCanoe dealer or email us at info@nucanoe.com.
