

Dashboard XL Instructions

#2510

Compatible With

Tools Required:

Phillips Screw Driver 7/16th" Crescent Wrench

Installation Instructions:

5. Install Risers – Using the 1-½" Truss Screws and the 1/4-20 Locknuts, fasten the Risers to the Dashboard XL. Position the Risers with the open end toward the curved side of the Dashboard XL. They may need to be adjusted to the proper width after installing the Dashboard XL.

6. Install Bullwinkle (for use with 4300 Elite Upgrade Kit) – Install the Bullwinkle to the top Center Mighty Bolt slot and twist to tighten.

7. Install RotoGrip Paddle Holder (for use with 4300 Elite Upgrade Kit) – Secure the RotoGrip paddle holder to any of the 6 Mighty Bolt slots for quick and easy storage of a paddle while fishing.

8. Ready for Use! – Dashboard XL is Mighty Bolt ready now! Simply drop the mighty bolt into any of the mighty bolt slots to secure all your accessories. Insert the 2 Track Sliders into the Freedom Track. Position the Dashboard XL Risers over the tracks so the Sliders go through the holes in the Risers. The Risers may need to be adjusted in the slots to set the proper width. Secure with the 2 Mighty Knobs.
